Air Partner transports vital airport equipment on behalf of Libyan logistics company

Air Partner, the global aviation services group, recently completed a cargo flight to transport airport equipment from the Czech Republic to Libya on behalf of a Libyan logistics company.

Air Partner received a request to charter 1100kgs of cargo from Czech airport Brno–Tuřany Airport to Al Abraq International Airport in the eastern part of Libya. The shipment contained a variety of parts sourced from various European manufacturers, including radio communication equipment, weather stations, antennas, runway lighting equipment. All were required to support the ongoing work to update Libya's airport infrastructure.

Air Partner successfully arranged a non-stop charter flight on an Antonov An-26 on 22nd September.

Libya has faced seven years of political crisis with several local armed factions controlling different parts of the country. A ceasefire agreement was reached on the 4th September but the situation on the ground in some parts of the country remains volatile.

Mike Hill, Director of Freight, Air Partner: *"We were pleased to complete this important flight as a significant step in the renewal of airport services in eastern Libya. The improvement of conditions on the ground will not only facilitate the continued work of NGOs in the area but also assist future aviation operations and commerce in Libya.*

Air Partner Freight charts aircraft of every size to fly cargo anywhere, at any time, whatever its weight, size or shape. Serving freight forwarders, governments, relief and humanitarian organisations, the freight team provides bespoke air charter solutions to meet a wide range of cargo charter needs. From urgent 'go now' requirements moving small quantities of automotive spare parts, through to the most complex project cargo shipments taking several months to plan, Air Partner Freight has the skills, experience and expertise to ensure shipments are handled securely and reliably. Air Partner Freight has cargo specialists in the UK, USA, Germany, France and Turkey, who provide strength of knowledge by utilising all types of aircraft for tailored cargo charter services.

About Air Partner:

Founded in 1961, Air Partner is a global aviation services group that provides worldwide solutions to industry, commerce, governments and private individuals. The Group has two divisions: Charter division, comprising air charter broking and remarketing; and the Consulting & Training division, comprising the aviation safety consultancies, Baines Simmons, Clockwork Research and SafeSkys, as well as Air Partner's Emergency Planning Division. For reporting purposes, the Group is structured into four divisions: Commercial Jets, Private Jets, Freight (Charter) and Consulting & Training (Baines Simmons, Clockwork Research, SafeSkys and Air Partner's Emergency Planning Division). The Commercial Jet division charts large airliners to move groups of any size. Air Partner Remarketing, which is within the Commercial Jet division, provides comprehensive remarketing programmes for all types of commercial and corporate aircraft to a wide range of international clients. Private Jets offers the Company's unique pre-paid JetCard scheme and on-demand charter. Freight charts aircraft of every size to fly almost any cargo anywhere, at any time. Baines Simmons is a world leader in aviation

safety consulting specialising in aviation regulation, compliance and safety management. Clockwork Research is a leading fatigue risk management consultancy. SafeSkys is a leading Environmental and Air Traffic Control services provider to UK and International airports. Air Partner is headquartered alongside Gatwick airport in the UK. Air Partner operates 24/7 year-round and has 20 offices globally. Air Partner is listed on the London Stock Exchange (AIR) and is ISO 9001:2015 compliant for commercial airline and private jet solutions worldwide. www.airpartner.com
